<p>• Potential for Expressive Behaviour of VERBAL aggression (raising his voice, rude manner, changing content of the story), RESISTIVE to care (Refusing perennial care, showers), physical aggression towards staff during care, False beliefs health and non health related related to Inability to COPE and chronic pain in the left side of the body and shoulder.</p> <p>Revision on: 08/12/2025 Revision by: Irina Foursova (RPN)</p>		<p>- loss of control - Physical limitation - Depression. Revision on: 03/10/2022 Revision by: Irina Foursova (RPN)</p> <p>• RESISTANCE to Care Need and Expressive Behavior of agitation and verbal expressions: Behavior management Plan: -When entering Mr. Harris room to provide nursing care, gently knock on the door and introduce or re-introduce yourself to Mr. Harris. Team member to explain to him what you are about to do. Mr. Harris likes to be informed upfront and appreciates a calm and cheerful mood. Empty the urinal every 2-3 hours and as needed -If Mr. Harris is refusing personal care and eating, attempt to ask in a gentle persuasive approach of the reason for refusal and re-approach in 10-15 minutes. -For personal care, arrange a time with Mr. Harris for his care. -Spend ample time with Mr. Harris during shift and be an active listener with him to build trust and resident-staff relationship. -If staff is busy with other resident and not able to attend care, approach him in a timely manner and let him know that you will attend to him in a few minutes. -Team members to ensure that Mr. Harris' left shoulder is supported before turning/repositioning him as resident has chronic pain in this side of the shoulder. Team member to communicate clearly to the resident of the repositioning/turning to be done prior to moving him r/t concerns with pain. -Prefers his medications to be given before 8 AM -Mr. Harris has difficulty coping with a change of staff, if he is becoming agitated due to new staff, let him know that you are willing to listen to his concerns and inform him you will address his concerns accordingly. Also, when possible bring another staff to assist with care. _When resident still refuse care, acknowledge his wish as per his preference. -After providing care to Mr. Harris, let him know you will close the door upon leaving as he prefers. ## Care Plan Report

Focus		Goal	Interventions			Position	Freq/Resolved
<p>• Potential for Expressive Behaviour of Hx RESISTIVE to care needs (Refusing care, refusing medications, refuse to eat, Hx refusing showers) and Physical aggression (hitting, slapping, punching, Striking, spitting at staff) r/t dementia.</p> <p>Revision on: 03/06/2025 Revision by: Irina Foursova (RPN)</p>			<p>• SOCIALLY Inappropriate Behaviour: If Mr. Lake is noted for spitting on the floor, clean the area using appropriate PPE. Report episode to Registered Staff.</p> <p>&gt; Staff to provide Mr. Lake with a mask during care to prevent spitting on staff. &gt;Staff to take off a mask when care is complete. Revision on: 09/28/2022 Revision by: Irina Foursova (RPN)</p> <p>• MEDICATION: Registered Staff to administer scheduled behavioral medications and utilize PRN (30 mins-1 hour prior to providing care) to improve mood/ manage expressive behavior as per MD Order. Monitor effectiveness and for side effects. Revision on: 09/27/2022 Revision by: Irina Foursova (RPN)</p> <p>• SPECIAL CONSIDERATIONS: Resident may exhibit expressive behavior of hitting or yelling at staff members. Possible Triggers: &gt;Resident may have trouble controlling impulses and internal thoughts was expressed without being filtered. &gt;It may be d/t too much sensory stimulation r/t progression of dementia. &gt;Mr. Lake may not understand the need for help/care therefore he feels that his personal space is invaded (anosognosia). &gt;Misinterpretation of environment ie, due to reduced vision r/t dx of glaucoma Possible interventions: &gt;Team members to be aware of body language and tone of voice as Mr. Lake can be more sensitive to non-verbal cues and signals. &gt;If Mr. Lake hits during care, another staff present to engage in person-centred intervention. Communicate to Mr. Lake on what you're about to do when providing care ie: "Mr. Lake we need to change your brief, would it be okay with you if I help you change it? Wait for a few seconds for Mr. Lake's response. &gt;Provide care to Mr. Lake when he's most calm. &gt;Stop and Go Approach - Please do not provide care if he is aggressive. Step away and re-approach at a later time. &gt; One team member speaks at a time. Approach Mr. Lake slowly and cautiously if necessary. &gt;Redirect him to an alternate conversation.</p>			PCA
